EHTIMAM CONTRACTING

إهتیمام للمقاولات

عبدالله صالح العسکر

Company Profile

Company Overview:

For over a decade since our establishment in 2010, we have announced our presence as a prominent contracting company in the world of building and infrastructure improvements. We specialize in executing innovative road networks, mesmerizing lighting, vital water systems, and smart sewage. Our goal is not just perfection, but sustainability and innovation will be present in every moment of our journey.

Objectives and Mission:

We accomplish development and contracting with innovation and high quality, and commit to economic costs that are consistent with the job market. Our social goal is to create job opportunities for youth and develop their skills to meet the future vision, to join our creative journey to achieve sustainable development.

Company Projects:
